

Tom Clancy's Ghost Recon: Future Soldier Trailer

Due for Release in 2010

March 26, 2010 - 15:01

This video game (previously known as Tom Clancy's Ghost Recon 4) is published by Ubisoft. Excluding expansions, it is the fifth installment in the Ghost Recon series, and was announced to be in development by Ubisoft on January 22, 2009. The game will be a futuristic take on the Ghost Recon series.

Initially, the title was revealed to be Tom Clancy's Ghost Recon Predator by an OFLC release. However in December 2009, "Ghost Recon: Future Soldier" was trademarked by Ubisoft, raising speculation that this could be the name for the upcoming Ghost Recon 4. This was subsequently confirmed by an official announcement.

While the release of Future Soldier was targeted for the 2009-2010 fiscal year, Ubisoft later announced that the release date would be pushed back until the 2010-2011 fiscal year to "strengthen" its video game line-up.
