

## Impressive Latest Blizzard's Intros

*World War Craft: Wrath of the Lich King - StarCraft II - Diablo III*

January 29, 2009 - 22:05

If you are not impressed, then you will have to improve your information about how the CG World is and its difficulty. These Blizzard's Cinematics reveal the model to follow and what the All Fully CGI-Rendered feature films will be in several years. We know that three minutes of intro cannot be compared with the hard work developed in a full CG Movie, but they are three minutes of glory to know how the future will be in all the cases.

We have selected the three latest works from Blizzard. Ready to enjoy?
