

# Tron Legacy. The New Sequel

*A Forthcoming 2010 Science Fiction Film*

July 25, 2009 - 21:22

This movie is a sequel to the 1982 film Tron. Joseph Kosinski is directing the film, while the previous film director, Steven Lisberger, returns as a producer. Jeff Bridges will reprise his role as Kevin Flynn, while Garrett Hedlund will portray Flynn's now-adult son, Sean. The other cast members include Bruce Boxleitner, Olivia Wilde, Beau Garrett and John Hurt. According to the teaser trailer shown at the 2009 Comic Con, the film will be presented in Disney Digital 3-D and IMAX 3D.

The primary shooting location of the film will be in Vancouver, British Columbia, Canada. Test footage of the film was shown at the 2008 San Diego Comic Con.

## Plot

Sean Flynn (Garrett Hedlund) is the 20-something son of Tron protagonist Kevin Flynn (Jeff Bridges), whose curiosity about his father's disappearance leads him to the now-abandoned site of Kevin's old arcade. Inside the old building, Sean is transported into the Computer World and embarks on an adventure in which he learns what has happened to his father, and of the shocking new threat to the Computer World.
