

CG Short Red Rabbit

Excellent story about a rabbit, his owner and the neighbor

January 22, 2010 - 14:50

We publish a interesting and funny CG creation from the german artists Egmont Mayer who won the Best Student Film at SICAF 2008 and was presented in the Annecy Festival the same year.

The plot is as follow: A man lives alone in a small apartment. The little contact he had with other people has dropped to zero since the rabbit appeared. Every attempt to get the rabbit out of his apartment has failed and since he is not sure whether or not pets are allowed in the building, he does not let anybody enter his apartment.
